

**AMENDMENT
TO THE
WIRELESS INTERCONNECTION
AGREEMENT
BETWEEN
NORTH DAKOTA TELEPHONE COMPANY
AND
NORTH DAKOTA NETWORK COMPANY
dba: SRT Wireless**

This is an Amendment to Section 4.1 and Attachments A, B and C of the Wireless Interconnection Agreement between North Dakota Telephone Company ("NDTC") and North Dakota Network Company ("NDNC") which became effective July 1, 2006.

The purpose of this Amendment is to revise Attachments A, B and C by removing the Velva exchange from NDTC's list of exchanges, adding the exchange of Knox which was inadvertently excluded in the original Agreement, and to detail access and reciprocal compensation calling for the exchange of traffic between NDTC and NDNC.

- 4.1 Type 2-A Interconnection at Minot: A two-way trunk group is provisioned between NDTC's network in Devils Lake, ND (DVLKNDXADS2) and NDNC's parent network in Minot, ND (MNOTNDXA01T). Applicable tariff charges for establishing and provisioning this trunk group is billed by NDTC to NDNC.

A. Landline to Wireless:

1. With the exception of traffic related to Section 4.1A(2), calls from NDTC's customers under Attachment A to NDNC customers under OCN 2577 are dialed as 1+ calls and handed off to the pre-subscribed Interexchange Carrier of the customer's choice. NDTC will bill these calls at applicable tariff rates to the pre-subscribed interexchange carrier and reciprocal compensation rates will not apply.
2. Local Service Area calls from NDTC's customers under Attachment B to NDNC customers under OCN 2577 are routed over the two-way trunk from NDTC's Devils Lake network to the NDNC's parent network in Minot. NDNC will bill NDTC reciprocal compensation rates referred to in Section 5.1 of the Wireless Interconnection Agreement.
3. Routing of all other landline to wireless calls involving NPA/NXX's for OCN 2577 will be in accordance to Telcordia Traffic Routing Administration instructions.

B. Wireless to Landline:

1. Calls from NDNC customers under OCN 2577, and roamers on the NDNC network, to NDTC customers under Attachment C are routed from NDNC network via the two-way trunk group to NDTC Devils Lake Office and terminated by NDTC. NDTC will bill NDNC reciprocal compensation at a rate specified in Section 5.1 of the Wireless Interconnection Agreement.

2. Routing of all other wireless to landline calls will be in accordance to Telcordia Traffic Routing Administration instructions.

IN WITNESS WHEREOF, the Parties hereto have caused this Amendment to the Wireless Interconnection Agreement between North Dakota Telephone Company (“NDTC”) and North Dakota Network Company (“NDNC”) to be executed as of this ____day of _____, 2007.
